

Product datasheet

Specifications

Motor operator 230V

for Frame 125

MOTP7125M

Device application	Automatic spring charging
Range of product	MCCB Frame 125
Product or component type	Motor mechanism
Rated operational voltage, Us	230V
Operating threshold	0.85~1.1Us
Control signal type	Impulse Maintained
Circuit breaker mounting mode	Fixed
Circuit breaker response time	<700ms (từ 400A là 1000ms)
Maximum power consumption in W	500W (từ 400A là 600W)
Range compatibility	MF125 MT125
Connection - terminal	Screw clamp terminals
Dimensions (AxH)	102x94mm
